Custom Made

Security Mesh

- Woven with high-tensile steel wire, each strand is individually tested to International standards.

- Passes and exceeds Knife Shear Testing, with proven strength superior to ordinary insect screen mesh.

- Passes and exceeds Salt Spray Testing, proven durability to resist coastal environments for residential and commercial applications.

- Seccurit components (mesh, aluminum tracks, and frames) have been powder coated in a special formulation for corrosion resistance and to exceed architectural exterior standards.

- Meshtec black-coated mesh filters up to an average of 60% of harmful UV rays while providing clear vision security.

Aluminium Sash

- Manufactured with high quality (grade 6063-T5) Aluminium for strength.

- The Seccurit fixing system is the subject of multiple international patents, and has been specially designed and developed to ensure product strength, integrity, and security.

Security Doors

Hinged Doors

Hinged security doors are often the first line of defense for the home owners.

Double / Single sliding doors

Many homes incorporate one or more sliding doors as access to entertainment areas, backyards and patios.

French Doors

The heavy duty hinges also lend a practical aspect by ensuring sung closure.
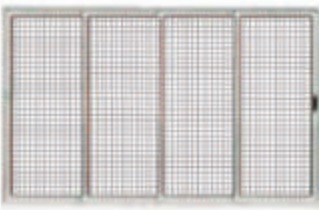

Bi-Fold Doors

While closed allows an abundance of natural light into your home with easy accessibility through a single operating doors.

Patio

Patio enclosures allow you to secure an exterior area, making it insect proof, with floor to celling screens.

Stacker Doors

Sliding stacker doors open your home up to your entertainment area within seconds without taking up any interior or exterior space

Security Windows

Casement Windows

Casement Window Screens can be installed on the inside or outside and opened either from left or right. It is suitable to protect an operable glass window.
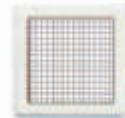

Quick Escape Windows

The Quick Escape System has an easy release push mechanism that also acts as a secure, temper resistant device that locks the screen closed for peace of mind.

Fixed Windows

Fixed Panels are the ideal solution to cover and protect non-operating windows in your home.

Awning Windows

Awning window screens provide an easy opening and can be installed on the inside or outside. It can be opened either from top or bottom and is ideally suited to protect an operable glass window.

French Windows

The French Window screen has two operating panels. With no center post, unobstructed views .

Pool facing & Balustrade

Utilizing the latest in balustrading systems, providing a strong and attractive fencing alternative to stand bard/glass systems.

Double/ Single Sliding Windows.

An outstanding feature of the product is the sash latching system with key locking, providing security for your home.

Handles, Locks and Hardware

Only tested and approved security hardware is selected to ensure strength and durability

Incorporates a 'Multi-Point-Lock' system specially designed for

Seccurit with one simple locking action.
